

mystery column	assumed knowledge	split cells	numbers formatted as text	Data is "helpfully" pre-aggregated
metadata mixed with data	circular references	Garbled text suggests encoding problems	out of date docs	starred numbers*
US zip codes 12345 or 90210	1970-01-01 T00:00:00Z or 1969-12-31 T23:59:59Z	FREE	Duplicate rows	Spreadsheet has exactly 65,536 rows
Data that "must exist" does not, in fact, exist	Yo, I hear you like metadata mixed with your data	Data disguised as formatting	metadata at end of spreadsheet	Spelling mistakes that reek of hand-typed data
Inexplicable outliers	65,535 or 2,147,483,647 or 4,294,967,295	long fieldnames are long	colour as data	.XLSB
